U.S. SENATOR FOR VERMONT

Len Britton – The Common-Sense Vermont *Choice*

- ✓ Eliminate the federal deficit for the sake of our children
- ✓ Create jobs by supporting Main Street not Wall Street
- ✓ End the influence of special interest money in Washington
- ✓ Invest in our decaying infrastructure
- ✓ Term Limits for Congress
- ✓ Pro Second Amendment
- ✓ Secure our borders

A Fresh Start - *Vermont Style.*

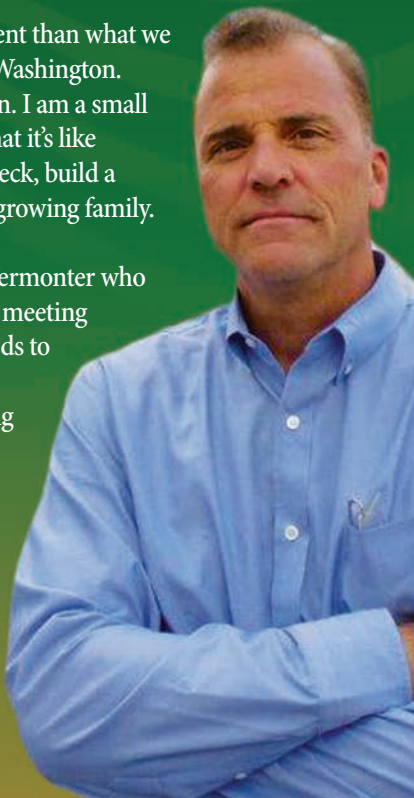

They go to Washington and we never see them again. Sure, they come home to deliver the pork from time to time, but they haven't come home to see how the rest of us are living. You know who I'm talking about: the entrenched, political elites.

Do you believe 42 years in the U.S. Senate is ok? I don't. It's time for a fresh prospective – time for someone who's lived your struggles day-to-day. Our founding fathers never envisioned a professional political class and I don't believe you support one either.

My background is different than what we have representing us in Washington. I'm not a career politician. I am a small businessman. I know what it's like to sign both sides of a check, build a business, and support a growing family.

I'm a ninth generation Vermonter who believes Vermont's town meeting style common-sense needs to replace the Washington status quo, where nothing gets accomplished and problems are not solved.

On Tuesday, November 2nd, send a Vermonter to the United States Senate. Vote for Len Britton and together we will make Washington listen.
